Heredity

An International Journal of Genetics

Heredity

Dr L. M. Cook, Manchester (*Editor*)
Dr P. D. S. Caligari, Edinburgh (*Junior Editor*)

Editorial Board

Dr M. G. Bulmer, Oxford	(1981–86)	Professor J. L. Jinks, Birmingham	(1984–89)
Dr J. S. Gale, Birmingham	(1981–86)	Dr G. A. Parker, Liverpool	(1984–89)
Dr C. Smith, Edinburgh	(1981–86)	Dr J. S. Parker, London	(1984–89)
Professor W. Scharloo, Utrecht	(1981–86)	Dr J. W. Snape, Cambridge	(1984–89)
Dr G. Dover, Cambridge	(1982–87)	Dr N. H. Barton, London	(1985–90)
Dr J. Barrett, Cambridge	(1983–88)	Professor D. S. Falconer, Edinburgh	(1985–90)
Dr R. A. D. Cameron, Birmingham	(1983–88)	Dr J. S. Jones, London	(1985–90)
Dr M. Hayward, Aberystwyth	(1983–88)	Mr G. R. Mackay, Edinburgh	(1985–90)
Dr T. J. Crawford, York	(1984–89)		

Heredity

Edited by

L. M. Cook
Manchester

P. D. S. Caligari
Edinburgh

An International Journal of Genetics
founded in 1947 by C D Darlington and R A Fisher
and now owned by the Genetical Society of Great Britain

Volume 55

1985

Longman

PRINTED IN GREAT BRITAIN BY
J. W. ARROWSMITH LTD., BRISTOL

Heredity

Volume 55 Number 1 August 1985

J. J. Bull
Models of parent-offspring conflict: effect of environmental variance 1

Leo S. Luckinbill and Michael J. Clare
Selection for life span in *Drosophila melanogaster* 9

Michael J. Clare and Leo S. Luckinbill
The effects of gene-environment interaction on the expression of longevity 19

Mona A. Mort and Hans Georg Wolf
Enzyme variability in large-lake *Daphnia* populations 27

G. S. Oxford
Geographical distribution of phenotypes regulating pigmentation in the spider *Enoplognatha ovata* (Clerck) (Araneae: Theridiidae) 37

Mahmud Ahmad and Philip W. Hedrick
Electrophoretic variation in the common mussel, *Mytilus edulis*: random association of alleles at different loci 47

Julia White and H. Rees
The chromosome cytology of a somatic hybrid petunia 53

M. W. Shaw, G. M. Hewitt and D. A. Anderson
Polymorphism in the rates of meiotic drive acting on the B-chromosome of *Myrmeleotettix maculatus* 61

J. G. Oakeshott, S. R. Wilson and P. Parnell
Selective effects of temperature on some enzyme polymorphisms in laboratory population of *Drosophila melanogaster* 69

Loredana Nigro, Rodolfo Costa, Suresh D. Jayakar and Laura Zonta
Est-6 in *Drosophila melanogaster*: effects of genetic composition, temperature and oviposition period on fitness in laboratory populations polymorphic for rare alleles 83

J. S. Heslop-Harrison, V. Chapman and M. D. Bennett
Heteromorphic bivalent association at meiosis in bread wheat 93

R. D. Ward and B. J. McAndrew
A search for gametic disequilibrium in the plaice, *Pleuronectes platessa* 105

H. S. Pooni, J. L. Jinks and D. Yohannes
Predicting the properties of random inbreds and second cycle hybrids using progeny families and hierarchical selfs of a four parent cross 111

R. A. Ennos
The mating system and genetic structure in a perennial grass, *Cynosurus cristatus* L. 121

J. L. Jinks, K. U. Chowdhury and H. S. Pooni
Comparison of the inbred lines derived for a hybrid of tobacco (burley × flue cured) by dihaploidy and single seed descent 127

Ruth M. Solomon
The relationship of genes X^i and Nb for resistance to potato virus X 135

M. J. Kearsey
The effect of linkage on additive genetic variance with inbreeding an F_2 139

Book Review 144

Volume 55 Number 2 October 1985

Graham J. Holloway
An analysis of inherited factors affecting the sex ratio in the rice weevil, *Sitophilus oryzae* L. 145

Peter S. Petraitis
Digametic sex determination in the marine polychaete, *Capitella capitata* (species type 1) 151

M. Westerman and G. M. Hewitt
Chromosome banding in *Podisma pedestris* 157

John F. Y. Brookfield and Sally F. Mitchell
P-M hybrid dysgenesis using geographically separate P strains of *Drosophila melanogaster* 163

Joel S. Shore and Spencer C. H. Barrett
The genetics of distyly and homostyly in *Turnera ulmifolia L.* (Turneraceae) 167

J. B. Searle
Isoenzyme variation in the common shrew (*Sorex araneus*) in Britain, in relation to karyotype 175

Elena Benavente and Juan Orellana
Evidence for preferential pairing in telotrisomic plants of rye 181

I. Lorraine Heisle
Quantitative genetic models of female choice based on "arbitrary" male characters 187

J. M. Pemberton and R. H. Smith
Lack of biochemical polymorphism in British fallow deer 199

Brian Charlesworth, Ikue Mori and Deborah Charlesworth
Genetic variation in recombination in *Drosophila.* III. Regional effects on crossing over and effects on non-disjunction 209

H. Van Oostrum, A. A. Sterk and H. J. W. Wijsman
Genetic variation in agamospermous microspecies of *Taraxacum* sect. *Erythrosperma* and sect. *Obliqua* 223

M. J. Puertas, F. Romera and A. de la Peña
Comparison of B chromosome effects on *Secale cereale and Secale vavilovii* 229

Kermit Ritland and Fred R. Ganders
Variation in the mating systems of *Bidens menziesii* (Asteraceae) in relation to population substructure 235

J. Navas-Castillo, J. Cabrero and J. P. M. Camacho
Chiasma redistribution in bivalents carrying a supernumerary chromosome segments in grasshoppers 245

W. Powell, P. D. S. Caligari, J. W. McNicol and J. L. Jinks
The use of doubled haploids in barley breeding. 3. An assessment of multivariate cross prediction methods 249

Vincente Giles, Guillermo Thode and M. Carmen Alvarez
A new Robertsonian fusion in the multiple chromosome polymorphism of a Mediterranean population of *Gobius paganellus* (Gobiidae, Perciformes) 255

Robert H. Cowie and J. S. Jones
Climatic selection on body colour in *Cepaea* 261

A. J. Heyward
Chromosomes of the coral *Goniopora lobata* (Anthozoa: Scleractinia) 269

Book Reviews 272

Book Received 276

Genetical Society Abstracts (1st, 2nd and 3rd April 1985 Meeting) 277

Volume 55 Number 3 December 1985

H. Ford and A. J. Richards
Isozyme variation within and between *Taraxacum* agamospecies in a single locality 289

D. D. Shaw, D. J. Coates, M. L. Arnold and P. Wilkinson
Temporal variation in the chromosomal structure of a hybrid zone and its relationship to karyotypic repatterning 293

D. A. Laurie and M. D. Bennett
Nuclear DNA content in the genera *Zea* and *Sorghum*. Intergeneric, interspecific and intraspecific variation 307

C. P. Werner and M. A. Cornish
Gene transfer in *Nicotiana rustica* by means of irradiated pollen IV. Qualitative characters 315

M. A. Cornish and C. P. Werner
Gene transfer in *Nicotiana rustica* by means of irradiated pollen V. Quantitative characters 321

J. L. Jinks, H. S. Pooni and M. K. U. Chowdhury
Detection of linkage and pleiotropy between characters of *Nicotiana tabacum* using inbred lines produced by dihaploidy and single seed descent 327

James A. Kolmer and Kurt J. Leonard
Genetic variation and selection for fertility in the fungus *Cochliobolus heterostrophus* 335

G. Livshits and E. Kobyliansky
Lerner's concept of developmental homeostasis and the problem of heterozygosity level in natural populations 341

J. W. M. Kerver and W. van Delden
Development of tolerance to ethanol in relation to the alcohol dehydrogenase locus in *Drosophila melanogaster* 1. Adult and egg-to-adult survival in relation to ADH activity 355

A. L. Freeth and J. B. Gibson
Alcohol dehydrogenase and sn-glycerol-3-phosphate dehydrogenase null activity alleles in natural populations of *Drosophila melanogaster* 369

C. Sentis and J. Fernandez-Piqueras
The B chromosomes of *Pycnogaster cucullata* (Charp.) and their effects on the A complement 375

D. J. Schoen
Correlation between classes of mating events in two experimental plant populations 381

Monica A. Hughes, M. Alison Dunn and John R. Pearson
A regulatory element controlling the synthesis of the cyanogenic B-glucosidase (Linamarase) of white clover 387

N. W. Simmonds
Two-stage selection strategy in plant breeding 393

P. O'Donald and M. E. N. Majerus
Sexual selection and the evolution of preferential mating in ladybirds 1. Selection for high and low lines of female preference 401

M. J. Willis and D. J. Heath
Genetic variability and environmental variability in the estuarine isopod *Sphaeroma rugicauda* 413

Julia White and H. Rees
Chromosome specific control of chiasma frequency in rye 421

Book Reviews 427
